Verify benefits and eligibility with Provider Service for all services. There may be differences in coverage at the member or group level. Services listed in this Guide may be governed by Medical Policies or Clinical Guidelines and may impact coverage decisions even when they do not require precertification. To review Medical Policies and Clinical Guidelines refer to the provider manual at www.anthem.com.
Note: NOC and unlisted codes — codes may not reflect precertification is required but codes may require medical necessity review upon Carelons submission depending on diagnosis and/or reimbursement level.

Certain items and/or criteria referenced in this document applies to local fully-insured Anthem members and select members who are covered under self-insured (ASO) benefit plans with services medically managed as part of a purchased program. It does not apply to BlueCard®, Medicare Advantage, Medicaid, Medicare Supplement, Federal Employee Program® (FEP®). The care provider will be notified upon requesting precertification if precertification is required for the member. If the program has not been purchased, precertification is not required and clinical review will not be performed for the member. For more information, contact Provider Services at the phone number on the back of the member ID card.
