Virginia Local Precertification/Prior Authorization List
HMO & EPO

Updated: July 1, 2026

Eligibility and benefits
Eligibility and benefits can be verified by accessing **https://Availity.com** or calling the number on the back of the member's identification card. Service preapproval is based on the member's benefit plan/eligibility at the time the service is reviewed/approved. Benefit plans vary widely and are su
effective dates. The care provider is responsible for verifying member eligibility and covered benefits.

Note: NOC and unlisted codes may not indicate that precertification is required, but, depending on the diagnosis or reimbursement level, these codes may require a medically necessary review upon claims submission.

HMO plans: Services listed below require prior approval and will not be eligible for reimbursement if rendered without the appropriate prior authorization for in-network care providers. HMO members may not have benefits for non-emergency services rendered outside of the network, which a
eligible for reimbursement.

EPO plans: Prior approval for the services listed below is highly recommended. If not completed in advance, a pre-payment review of the claim will occur and may result in the claim being deemed eligible for reimbursement. No out-of-network benefit is available, except ER/urgent care and autl

Notification process
For non-urgent requests, submit all required clinical information 14 calendar days before the proposed service when possible. For institutional admissions, all facilities must notify the plan by the next business day or within 48 hours after the admission, whichever is earlier. Failure to notify the plan promptly may result in a financial penalty.
