Changes coming to our commercial medical plan drug lists

Starting **July 1, 2026**, we're making changes to our commercial medical plan drug lists. These changes support our commitment to high quality, cost-effective health care. **Please note these changes do not apply to our Medicare and Medicaid plans.**

It's likely some of your patients are taking these drugs. We've notified your impacted patients of these changes and suggested they talk to you about changing to a preferred alternative drug if appropriate.
****Indicates drugs in the Combined Benefit Management Drug List

UPPER CASE = brand-name drug **lower case** = generic drug

SOLIRIS**	J1299	Paroxysmal nocturnal hemoglobinuria (PNH)	Moving to Pharmacy Benefit only
ULTOMIRIS**	J1303	Paroxysmal nocturnal hemoglobinuria (PNH)	Moving to Pharmacy Benefit only

Combined Benefit Management Drug List medications

If the medication has an "**" indicator, it's part of our Combined Benefit Management Drug List. Under this program, some drugs may only be available on the member's prescription or medical benefit. This drug list only applies to members enrolled in Aetna fully insured medical and pharmacy benefit plans, including the Aetna Funding Advantage plan.

This does not include Aetna Health Exchange Small Group plans, Federal Employee plans, Medicare and Medicaid plans.

We're here to support you

We're committed to smooth transitions for you and your patients. If your patients currently have a prior authorization (PA) in place for one of these impacted drugs, it will remain in place until the current expiration. Additionally, we'll proactively load a PA on the new benefit with the same termination date as the member's existing PA.

- If you are currently billing a drug to the medical benefit that is now moving to the pharmacy benefit, you may need to issue a prescription to an in-network specialty pharmacy.
- If you decide it's clinically appropriate and choose to change your patient to a preferred alternative drug option under the medical benefit, you will need to submit a new PA.
- If your patient is currently accessing a drug through their pharmacy benefit that is now moving to the medical benefit, they may continue to receive the drug from the in-network specialty pharmacy. The pharmacy will change the billing from pharmacy to medical coverage.

Need more support?

You can call us at the number on the back of your patient's member ID card.

Health benefits and health insurance plans are offered, administered and/or underwritten by Aetna Health Inc., Aetna Health Insurance Company of New York, Aetna Health Assurance Pennsylvania Inc., Aetna Health Insurance company and/or Aetna Life Insurance Company (Aetna). In Florida, by Aetna Health Inc. and/or Aetna Life Insurance Company. In Utah and Wyoming by Aetna Health of Utah Inc. and Aetna Life Insurance Company. In Maryland, by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156. Each insurer has sole financial responsibility for its own products. Pharmacy benefits are administered by an affiliated pharmacy benefit manager, CVS Caremark. Aetna® is part of the CVS Health® family of companies.

Not all health services are covered. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. To check coverage and copay information for a specific medicine, log into your member website. For questions, please call the toll-free number on the back of your member ID card.

Information is subject to change. In accordance with state law, changes to drug coverage are not effective for commercial fully insured plans (including HMOs) in Louisiana, New York, Texas, and in most circumstances Connecticut, until the plans' renewal date.
