Commercial Drug Formulary

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN YOUR PLAN. PLEASE NOTE, HOWEVER, THAT CERTAIN DRUGS ON THIS LIST MAY BE EXCLUDED UNDER YOUR SPECIFIC PLAN DESIGN. PLEASE REFER TO YOUR COVERAGE DOCUMENTS TO DETERMINE SPECIFIC BENEFIT LEVELS.

PLEASE NOTE: This list is subject to change and is not all-inclusive. Please review this document and contact Customer Service with questions.

The coverage level for prescription drugs is generally higher when a member receives them at an in-network pharmacy, and, for some plans, members must use network pharmacies to receive prescription drug benefits. Plan terms vary and members should consult their benefit plan documents for specific coverage information. In the event of a conflict between the terms of this document and your benefit plan document, the terms of your benefit plan document will govern.

Prior authorization may be required to obtain coverage for certain drugs on this list. The coverage level of brand name drugs may change when a generic equivalent or interchangeable biosimilar becomes available.

If you have questions, please call the Customer Service number listed on the back of your ID card.

What is a Drug Formulary?

The Plan's Drug Formulary is comprised of drugs that meet the medical needs of our members and have proven safety and effectiveness. It includes both brand name and generic drugs. The drugs on this list have been approved by the Food and Drug Administration (FDA). A team of physicians and pharmacists meets regularly to review and update the list. Your doctor can use this list to select medications for your health care needs, while helping you maximize your prescription drug benefit.

Are both brand name and generic drugs on the list?

Yes. The Drug Formulary includes brand name and generic drugs from most therapeutic classifications.

The terms "generic" and "brand name" are used in the health care industry in different ways. To better understand your coverage, please review the following:

Generic: A drug: (1) that contains the same active ingredient as a brand name drug and is chemically equivalent to a brand name drug in strength, concentration, dosage form and route of administration; or (2) that The Plan identifies as a generic product. The Plan uses industry standard resources to determine a drug's classification as either brand name or generic. Not all products identified as "generic" by the manufacturer, pharmacy or your provider may be classified by The Plan as generic.

Preferred generic drugs are your lowest copayment or coinsurance option. For your lowest share of the cost, consider a preferred generic covered drug if you and your provider decide it is appropriate for your treatment.

Non-preferred generic drugs have a higher copayment or coinsurance than preferred generic drugs. Non-preferred generic drugs are covered at two benefit levels. If you have questions about which benefit level a specific non-preferred generic drug is covered at, see The Formulary by logging into your member portal or call Member Services at the number on the back of your Plan ID card.

Brand: A drug: (1) that is manufactured and marketed under a trademark or name by a specific drug manufacturer; or (2) that The Plan identifies as a brand name product. The Plan uses industry standard resources to determine a drug's classification as either brand name or generic. Not all products identified as "brand name" by the manufacturer, pharmacy or your provider may be classified by The Plan as brand name.

Preferred brand drugs on The Drug Formulary have a higher copayment or coinsurance. You may consider a preferred brand covered drug to treat your condition if you and your provider decide it is appropriate.

Non-preferred brand drugs have the highest copayment or coinsurance. The covered non-preferred brand drugs are usually more costly.

If you have questions about The Plan's Drug Formulary or whether a specific drug is covered (and/or whether the drug is a preferred generic, non-preferred generic, preferred brand, or non-preferred brand), or if you would like to request a copy of The Plan's Drug Formulary at no charge, please call the Member Services number listed on the back of your ID card.

Does the Drug Formulary ever change?

The Plan's Drug Formulary can change during the course of a calendar year. The Plan strives to limit these changes. Examples of when changes may occur include when a new generic drug or interchangeable biosimilar becomes available or when new adverse information about the safety or effectiveness of a drug is released.

Certain drugs on the Drug Formulary may be excluded under your specific plan design. Please refer to your benefit plan document to determine specific benefit levels.

How do I use The Drug Formulary?

There are two ways to find your drug within The Drug Formulary:

Drug Category

The drugs in this Drug Formulary are grouped into categories depending on their clinical classification. For example, drugs that are considered "antivirals" will be listed under the "antiviral" category. If you know how your drug is classified, look for the category name in the list. Then look under the category name for your drug.

Alphabetical Listing

The Drug Formulary also provides an alphabetical list of drugs. Both brand name drugs and generic drugs are listed.

Preventive Drug and Supply Medications ($0)

Medications displayed with the "$0" indicator are defined as preventive health services under the Affordable Care Act (ACA) and are provided without member cost sharing, however, please note some limitations may apply. If your benefit includes mail order, please note that some preventive drugs and supplies may not be available through this service.

Are there any restrictions on my coverage?

For some prescriptions there are special requirements that must be met in order to receive coverage. These include:

Prior authorization (PA)

Certain drugs require prior authorization (approval in advance) from the Plan in order to be covered. These medications are shown on The Drug Formulary with the abbreviation "PA." The Drug Formulary is available to providers, including pharmacies. Your network provider who prescribes the drug should initiate the prior authorization process. You will pay the entire cost of the drug received if you do not meet The Plan's prior authorization criteria.

Step therapy (ST)

Step therapy is a process that involves trying an alternative covered drug first (typically a generic drug) before moving to a preferred brand or non-preferred brand covered drug for treatment of the same medical condition. The medications subject to step therapy are shown on The Plan's Drug Formulary with the abbreviation "ST." You must meet applicable step therapy requirements before The Plan will cover these drugs.

Quantity limits (QL)

Certain covered drugs have limits on the maximum quantity allowed per prescription over a specific time period. The medications subject to quantity limits are shown on The Plan's Drug Formulary with the abbreviation "QL." Some quantity limits are based on the manufacturer's packaging, FDA labeling or clinical guidelines.

Medical Benefit Drugs (M)

Certain drugs fall under the medical benefits rather than pharmacy benefits. These drugs require administration by healthcare professionals in a physician's office, outpatient hospital or home infusion setting. You can find information on Medical Drug Policies on The Plan's website.

Plan Exclusion (EXC)

Certain drugs may not be covered depending on your plan design. You should refer to your benefit plan document for further information.

Can I request an exception to the coverage restrictions?

Yes. In certain cases, it is possible to request an exception. Please note that exceptions will only be allowed when specific clinical criteria are satisfied. Your doctor can find the information needed to make a request on your behalf on The Plan's website. To facilitate a thorough review, The Plan asks that all information requested in the form be provided, including documentation of which medications have been tried and failed, including the dosages used, and the identified reason for failure (e.g. side effects, lack of efficacy).

Are new to market drugs covered?

New-to-market products that are recently approved by the FDA (including approval for a new indication) and introduced to the market will not be covered until they are reviewed and considered for placement on The Drug Formulary by The Plan.

Specialty Program (LMSP, MSP)

Certain drugs are available only through your specialty pharmacy benefit. Specialty medications are high-technology, high cost, oral or injectable drugs used for the treatment of certain diseases that require complex therapies. Many specialty medications require special handling and in most cases are prescribed by a specialist.

In order to receive an LMSP designated specialty medication, you must utilize Lumicera Specialty Pharmacy (The Plan's designated specialty pharmacy).

Limited Availability Drugs (LD)

In certain circumstances, select medications may only be available at certain pharmacies. Limited distribution (LD) drugs are medications that may have special dosing or lab monitoring requirements that need to be followed very closely. Because of this, the manufacturer sometimes chooses to limit the distribution of its drug to only a few pharmacies, or as part of the drug approval process the FDA may recommend this type of distribution in order for the drug to be approved. This type of restricted distribution helps the manufacturer keep track of drug inventory, properly educate dispensing pharmacists about any necessary monitoring, and ensure that any risks that are associated with the LD drugs are minimized.

Your provider typically knows where to send prescriptions for limited availability drugs, but if you have any questions, reach out to Lumicera Specialty Pharmacy and they will assist you in which specialty pharmacies can dispense the drug you need.

Oral Oncology Medications

Oral drugs for the treatment of cancer are restricted to the Specialty Pharmacy Network (or LD designated pharmacy) but are not subject to the specialty prescription drug copay. Oral oncology specialty medications are subject to the applicable outpatient prescription drug copay as outlined in your benefit plan document.

Please Note: Your benefit plan defines the level of coverage.

Remember, just because a drug that you take is listed on The Drug Formulary does not mean that your benefit plan covers that medication. If you have questions, please refer to your benefit plan document or call The Plan's Member Services phone number listed on the back of your ID card to determine what level of coverage you have.

Note: To Search The Drug Formulary, use ctrl + F on your keyboard and type in the search term.

The Affordable Care Act (ACA) requires that eligible people get certain preventive services at no cost. The ACA requires that grade A and B recommendations for preventive services from the United States Preventive Services Task Force (USPSTF), immunization recommendations from the Advisory Committee on Immunization Practices (ACIP) of the Centers for Disease Control and Prevention (CDC), and contraceptive recommendations from the Health Resources and Services Administration (HRSA) are all covered at no cost. The following categories and related drugs are recommendations from these organizations.

Breast Cancer Prevention

Population	Recommendation	Medications Covered
Women at increased risk for breast cancer aged 35 years or older	The USPSTF recommends that clinicians offer to prescribe risk-reducing medications, such as tamoxifen, raloxifene, or aromatase inhibitors, to women who are at increased risk for breast cancer and at low risk for adverse medication effects.	anastrozole tablets exemestane tablets tamoxifen tablets raloxifene tablets *Covered at $0 for women 35 years or older*

Cardiovascular Disease Primary Prevention

Population	Recommendation	Medications Covered
Adults aged 40 to 75 years who are at high risk for cardiovascular disease (CVD)	The USPSTF recommends that clinicians prescribe a statin for the primary prevention of CVD for adults aged 40 to 75 years who have 1 or more CVD risk factors (i.e. dyslipidemia, diabetes, hypertension, or smoking) and an estimated 10-year risk of a cardiovascular event of 10% or greater.	atorvastatin tablets lovastatin tablets pravastatin tablets rosuvastatin tablets simvastatin tablets *(excluding 80 mg)* *Covered at $0 for all age groups*

Note: The list is subject to change and not all drugs listed may be covered on your formulary.
Please refer to your Navitus formulary for a complete list of covered products and any age restrictions.

This document is confidential and proprietary.
© 2023 Navitus Health Solutions, LLC. All Rights Reserved.

Colorectal Cancer Screening

Population	Recommendation	Medications Covered
Adults aged 45 to 75 years	The USPSTF recommends screening for colorectal cancer in all adults aged 45 to 75 years using fecal occult blood testing, sigmoidoscopy, or colonoscopy. Since bowel preparation is required for colonoscopies, select bowel preparation medications will be covered.	Low volume preps Generic Moviprep equiv Generic Suprep equiv High volume preps peg 3350/electrolytes (Gavilyte, Golytely, Nulytely) *Covered at $0 for members 45-75 years; limited to 2 fills per calendar year*

Contraceptives

Population	Recommendation	Medications Covered
Persons seeking contraceptive coverage	WPSI (Women's Preventive Services Initiative) recommends that adolescent and adult women have access to the full range of contraceptives to prevent unintended pregnancy and improve birth outcomes.	At least one form of all contraceptive methods approved, granted, or cleared by the FDA *Refer to formulary for complete list*

Human Immunodeficiency Virus (HIV) Pre-Exposure Prophylaxis (PrEP)

Population	Recommendation	Medications Covered
Persons at high risk of HIV infection	The USPSTF recommends that clinicians offer preexposure prophylaxis (PrEP) with effective antiretroviral therapy to persons who are at high risk of HIV acquisition. See the Clinical Considerations section for information about identification of persons at high risk and selection of effective antiretroviral therapy.	emtricitabine/tenofovir disoproxil fumarate tablets (Truvada equiv) Descovy tablets* Apretude injectable* Yeztugo tablets and injectable* **Prior authorization required; Quantity limits may apply*

Note: The list is subject to change and not all drugs listed may be covered on your formulary.
Please refer to your Navitus formulary for a complete list of covered products and any age restrictions.

This document is confidential and proprietary.
© 2023 Navitus Health Solutions, LLC. All Rights Reserved.

Preeclampsia Prevention

Population	Recommendation	Medications Covered
Pregnant persons at high risk for preeclampsia	The USPSTF recommends the use of low-dose aspirin (81 mg/day) as preventive medication after 12 weeks of gestation in persons who are at high risk for preeclampsia.	aspirin 81 mg *Covered at $0 for females*

Smoking Cessation

Population	Recommendation	Medications Covered
Adults that use tobacco products	The USPSTF recommends that clinicians ask all adults about tobacco use, advise them to stop using tobacco, and provide behavioral interventions and US Food and Drug Administration (FDA)--approved pharmacotherapy for cessation to nonpregnant adults who use tobacco.	bupropion tablets (Zyban equiv) varenicline tablets (Chantix equiv) nicotine replacement therapy *Covered at $0 for all members; may be limited to 180 days per plan year*

Vaccines

Population	Recommendation	Immunizations Covered
Ages and recommended populations vary	To prevent certain illnesses, ACIP recommends immunizations based on age and other factors such as co-morbid conditions.	COVID-19 Dengue Haemophilus Influenzae Type B Hepatitis A & B Human Papillomavirus (HPV) Influenza Measles, Mumps, Rubella (MMR) Meningococcal Mpox Pneumococcal Poliovirus Respiratory Syncytial Virus (RSV) Rotavirus Td, Tdap, DTaP Varicella (chicken pox) Zoster (shingles) *Covered at $0; Quantity limits may apply*

Note: The list is subject to change and not all drugs listed may be covered on your formulary.
Please refer to your Navitus formulary for a complete list of covered products and any age restrictions.

This document is confidential and proprietary.
© 2023 Navitus Health Solutions, LLC. All Rights Reserved.

Vitamins and Minerals

Population	Recommendation	Medications Covered
Folic acid in women who are planning or capable of pregnancy	The USPSTF recommends that all women who are planning or capable of pregnancy take a daily supplement containing 0.4 to 0.8 mg (400 to 800 µg) of folic acid.	folic acid tablets *Covered at $0 for females*
Fluoride for children younger than 5 years	The USPSTF recommends that primary care clinicians prescribe oral fluoride supplementation starting at age 6 months for children whose water supply is deficient in fluoride.	sodium fluoride *Covered at $0 for members 5 years or younger*

Note: The list is subject to change and not all drugs listed may be covered on your formulary.
Please refer to your Navitus formulary for a complete list of covered products and any age restrictions.

This document is confidential and proprietary.

Search Tip:
This is a large document, but you can search quickly and easily by clicking on the binocular icon on your toolbar or using the CTRL+F search function from your keyboard. It will then display a search box for you to type in the name of the drug you want to locate. If you do not know the correct spelling, you can start your search by entering just the first few letters of the name.

2026 Expanded Preventive Drug List

Updated July 2026

Your health plan is making an effort to reduce your health care costs by giving you tools to help you stay healthy and productive. Below are the medications included on your Preventive Drug List. These medications help protect against or manage some high risk medical conditions. Taking these medications as directed by your prescriber can help avoid serious health problems. That may mean fewer doctor visits and hospitalizations, reducing your total health care costs.

This list is updated annually on a calendar year basis and is subject to change. Step therapy, quantity limits, and prior authorizations may apply. Please refer to your drug formulary for most current limitations.

Generic drugs are shown in lowercase type. Brand name drugs are shown in uppercase type.

Tablet Splitting Program

Tablet splitting helps control prescription drug benefit costs and can provide significant savings for members. Participation in the program is voluntary. Through this program, members pay up to one-half of their usual copayment on a select group of prescription drugs. Drugs included in this program are based on the following criteria:

• The drug product is on the formulary.
• The drug product is recognized as an appropriate product to split by the Pharmacy & Therapeutics Committee.
• The drug is flat priced (i.e. various strengths of the medication must be comparably priced).
• The medication must have once-daily dosing.

An example of the savings that can be realized through this program is illustrated below:

	Product & Strength	Quantity	Member Copay	Member Annual Savings
Without Tablet Splitting	Drug A 40 mg tab	30	$15.00	
With Tablet Splitting	Drug A 80 mg tab	15	$7.50	$90

As the example illustrates, tablet splitting allows members to receive the same dose in a fewer number of tablets; thus, the overall
