Cigna Specialty Care Options and Cigna Specialty Care Options Plus

Drug list and frequently asked questions

Updated June 2026

The Cigna Specialty Care Options® and Cigna Specialty Care Options Plus® programs identify customers whose non-oncology and oncology specialty medications are being administered in a higher-intensity setting (e.g., outpatient hospital) to determine whether an affordable, less-intensive site of care is clinically appropriate. These customers are identified at the time of prior authorization.

When clinically appropriate, the Specialty Care Options team redirects customers to a quality, less-intensive site of care, such as a contracted provider's office, customer's home with infusion nurses, or non-hospital-based ambulatory infusion center. In certain circumstances, procurement from a specialty pharmacy with which Cigna Healthcare® has a reimbursement arrangement may be an option.

Additional information, including medical necessity requirements for a higher-intensity setting, is outlined in the Medication Administration Site of Care coverage policy on the Cigna for Health Care Professionals website (CignaforHCP.com).

Frequently asked questions

1. **Which specialty medical drugs does site of care apply to?**
   The lists of specialty drugs that are eligible for redirection are provided after this section. The Specialty Care Options and Specialty Care Options Plus lists are subject to change without prior notice.

2. **What are the criteria for a drug to be considered?**
   Drugs included in these programs are identified based on manufacturer and U.S. Food and Drug Administration guidelines for administration. Further, Cigna Healthcare medical directors across various specialties rigorously review each drug to ensure the safety and efficacy of administration in lower-intensity settings.

3. **Is there a special prior authorization process for drugs eligible for redirection?**
   No. The standard prior authorization process for medical necessity for the drug applies. Additionally, medical necessity requirements for the least intensive setting are outlined in the Medication Administration Site of Care coverage policy.

   A request initiated from an outpatient hospital setting may be subject to a one-time 30-day approval period to facilitate transition to a clinically appropriate less-intensive site of care.

4. **How will Cigna Healthcare support coordination of services with the less-intensive site of care?**
   Cigna Healthcare has a dedicated team of registered nurse case managers who will facilitate arrangements and coordinate care in collaboration with providers and customers. For questions, please call Cigna Healthcare at **877.865.6492**.

5. **Who should providers contact with additional questions about the Specialty Care Options and Specialty Care Options Plus drugs?**
   Providers should call the Specialty Care Options team at **877.865.6492** if they have questions.

Specialty Care Options Plus oncology injectables drug list

The following table details the affected oncology drugs[1,2] eligible for a less-intensive site-of-care review. This list may change without prior notice.

HCPCS code[3]	Brand name	Generic name	Addition date
J9042	Adcetris®	brentuximab vedotin	March 2021
Q5126	Alymsys®	bevacizumab-maly	July 2022
Q5161	Aukelso	denosumab-kyqq	April 2026
J9035	Avastin®	bevacizumab	March 2021
J9023	Bavencio®	avelumab	July 2025
J3590	Bilprevda®	denosumab-nxxp	November 2025
J9039	Blincyto®	blinatumomab	July 2026
J3590	Bomyntra	denosumab-bnht	July 2025
J9144	Darzalex Faspro®	daratumumab and hyaluronidase-fihj	March 2021
J3590	Enoby™	denosumab-qbde	February 2026
J9395	Faslodex®	fulvestrant	October 2021
Q5130	Fylnetra®	pegfilgrastim-pbbk	October 2022
Q5108	Fulphila®	pegfilgrastim-jmdb	October 2018
J9355	Herceptin®	trastuzumab	March 2021
J9356	Herceptin Hylecta®	trastuzumab and hyaluronidase-oysk	April 2022
Q5146	Hercessi™	trastuzumab-strf	January 2025
Q5113	Herzuma®	trastuzumab-pkrb	March 2021
J9173	Imfinzi®	durvalumab	March 2021
J9347	Imjudo®	tremelimumab-actl	November 2022
J9272	Jemperli®	dostarlimab-gxly	May 2021
J9999	Jobevne	Bevacizumab-nwgd	November 2025
J9354	Kadcyla®	ado-trastuzumab emtansine	March 2021
Q5117	Kanjinti®	trastuzumab-anns	March 2021
J9271	Keytruda®	pembrolizumab	March 2021
J9999	Keytruda Qlex™	pembrolizumab and berahyaluronidase alfa-pmph	November 2025
J1932	Lanreotide (Cipla)	lanreotide	October 2022

J9999	Loqtorzi®	toripalimab-tpzi	February 2024
J9350	Lunsumio Velo	mosunetuzumab-axgb	February 2026
J1950	Lupron Depot®[4]	leuprolide acetate for depot suspension (3.75 mg)	July 2021
J1954	Leuprolide Depot	leuprolide acetate for depot suspension (7.5mg)	January 2023
Q5107	Mvasi®	bevacizumab-awwb	March 2021
J2506	Neulasta® OnPro®	pegfilgrastim	February 2017
J2506	Neulasta (syringe)	pegfilgrastim	February 2017
Q5122	Nyvepria®	pegfilgrastim-apgf	January 2021
Q5114	Ogivri®	trastuzumab-dkst	March 2021
Q5112	Ontruzant®	trastuzumab-dttb	March 2021
J9299	Opdivo®	nivolumab	March 2021
J9999	Opdivo Qvantig™	nivolumab hyaluronidase-nhyy	January 2025
J9298	Opdualag®	nivolumab and relatimab-rmbw	May 2022
J3590	Osenvelt®	denosumab-bmwo	June 2025
J9306	Perjeta®	pertuzumab	March 2021
J9316	Phesgo®	pertuzumab, trastuzumab, and hyaluronidase-zzxf	March 2021
Q5123	Riabni®	rituximab-arrx	January 2021
J9312	Rituxan®[4]	rituximab (10 mg)	July 2017
J9311	Rituxan Hycela®	rituximab and hyaluronidase (human)	March 2021
J1449	Rolvedon®	leukocyte (WBC) stimulant	November 2022
Q5119	Ruxience®[4]	rituximab-pvvr	August 2020
J9999	Rybrevant Faspro™	amivantamab-hyaluronidase-lpuj	February 2026
J2353	Sandostatin LAR® Depot	octreotide acetate	May 2017
J1930	Somatuline® Depot	lanreotide	May 2017
Q5127	Stimufend®	pegfilgrastim-fpgk	January 2023
J9022	Tecentriq®	atezolizumab	May 2021
J9999	Tecentriq Hybreza®	atezolizumab and hyaluronidase-tqjs	October 2024
J9329	Tevimbra®	tislelizumab-jsgr	November 2024
Q5116	Trazimera®	trastuzumab-qyyp	March 2021
J3315	Trelstar®	triptorelin pamoate	July 2021
Q5115	Truxima®[4]	rituximab-abbs	August 2020
Q5111	Udenyca® (syringe)	pegfilgrastim-cbqv	December 2018
Q5111	Udenyca (autoinjector)	pegfilgrastim-cbqv	May 2023

Q5111	Udenyca Onbody™	pegfilgrastim-cbqv	February 2024
J9275	Unloxcyt™	cosibelimab-ipdl	November 2025
Q5129	Vegzelma®	bevacizumab	March 2023
Q5136	Wyost	denosumab-bbdz	June 2025
J0897	Xgeva®	denosumab	March 2021
J3590	Xtrenbo™	denosumab-qbde	February 2026
J9228	Yervoy®	ipilimumab	March 2021
Q5120	Ziextenzo®	pegfilgrastim-bmez	July 2020
Q5118	Zirabev®	bevacizumab-bvzr	March 2021

1. When prescribing oncology drugs for your patients with Cigna Healthcare coverage, please request prior authorization, when it is needed, through EviCore by Evernorth®. To access the full list of drugs requiring prior authorization, log in to CignaforHCP.com and go to Resources > Reimbursement Policies and Payment Policies > Precertification Policies > Oncology Drugs Requiring Precertification through EviCore Healthcare.
2. Cigna Healthcare may grant an exception to reimburse a one-time, or single, administration billed by a facility when a customer needs access to the injectable before it can be obtained from a specialty pharmacy with which Cigna Healthcare has a reimbursement arrangement.
3. Healthcare Common Procedure Coding System.
4. Drug is listed on both the Specialty Care Options and Specialty Care Options Plus drug list
5. Drugs with an effective date of July 2026 are effective for commercial plans only. These drugs will be effective 1/1/27 for Individual and Family Plans (IFP)

Specialty Care Options non-oncology injectables drug list

The following table details the affected non-oncology drugs[1,2] eligible for a less-intensive site-of-care review. This list may change without prior notice.

HCPCS code[3]	Brand name	Generic name	Addition date
J3262	Actemra®	tocilizumab	July 2017
J0791	Adakveo®	crizanlizumab-tmca	July 2020
J0172	Aduhelm®	aducanumab-avwa	July 2021
J7192	Advate®	factor VIII (antihemophilic factor, recombinant)	July 2026[5]
J7207	Adynovate®	factor VIII, (antihemophilic factor, recombinant)	July 2026[5]
J7201	Afstyla®	factor VIII, (antihemophilic factor, recombinant)	July 2026[5]
J1931	Aldurazyme®	laronidase	May 2017
J7186	Alphanate®	antihemophilic factor VIII/Von Willebrand factor complex (human)	July 2026[5]
J7193	AlphaNine® SD	factor IX (antihemophilic factor, purified, non-recombinant)	July 2026[5]
J7201	Alprolix®	factor IX, Fc fusion protein, (recombinant)	July 2026[5]
J7214	Altuviiio®	(antihemophilic factor (recombinant), Fc-VWF-XTEN fusion protein-ehtl)	July 2026[5]
J1599	Alygo™	immune globulin intravenous, human-stwk	April 2024
J1426	Amondys 45®	casimersen	March 2021
J0225	Amvuttra®	vutrisiran	July 2022

J0256	Aralast® NP	alpha$_1$-proteinase inhibitor (human)	May 2017
J0881	Aranesp®	darbepoetin alfa	March 2017
J1554	Asceniv®	immune globulin	March 2021
J3145	Aveed®	testosterone undecanoate	June 2018
J3590	Avlayah™	tividenofusp alfa-eknm	April 2026
Q5121	Avsola®	infliximab-axxq	July 2020
Q5156	Avtozma®	tocilizumab-anoh	November 2025
J7195	BeneFIX®	injection factor IX (antihemophilic factor, recombinant)	July 2026[5]
J0490	Benlysta®	belimumab	May 2017
J0597	Berinert®	C1 esterase inhibitor (human)	December 2018
J1556	Bivigam®	immune globulin intravenous (human)	May 2017
J2329	Briumvi®	ublituximab-xiiy	January 2023
Q5152	Bkemv	Eculizumab-aeeb	April 2025
J0741	Cabenuva®	cabotegravir/rilpivirine	February 2021
C9047	Cablivi®	caplacizumab-yhdb	July 2019
J1786	Cerezyme®	imiglucerase	May 2017
J2786	Cinqair®	reslizumab	June 2018
J0598	Cinryze®	C1 esterase inhibitor (human)	December 2018
J7175	Coagadex®	factor X, (human)	July 2026[5]
J7180	Corifact®	factor XIII (antihemophilic factor, human)	July 2026[5]
J3590	Cosentyx® (IV)	secukinumab	November 2023
J0584	Crysvita®	burosumab-twza	March 2019
J1551	Cutaquig®	immune globulin subcutaneous (human)-hipp	July 2019
J1555	Cuvitru®	immune globulin subcutaneous (human)	January 2018
J1743	Elaprase®	idursulfase	May 2017
J3060	Elelyso®	taliglucerase alfa	May 2017
J9217	Eligard[4]	leuprolide acetate for injectable suspension	July 2021
J3590	Elfabrio®	pegunigalsidase alfa-iwxj	July 2023
J7205	Eloctate®	factor VIII, Fc fusion protein (recombinant)	July 2026[5]
J1302	Enjaymo®	sutimlimab-jome	March 2022
J3380	Entyvio®	vedolizumab	May 2017
Q5151	Epysqli®	eculizumab-aagh	April 2025
J7204	Esperoct®	factor viii, antihemophilic factor (recombinant), glycopegylated-exei	July 2026[5]

J3111	Evenity®	romosozumab-aqqg	July 2019
J1305	Evkeeza®	evinacumab-dgnb	April 2021
J3590	Exdensur	depemokimab-ulaa	February 2026
J1428	Exondys 51®	eteplirsen	February 2018
J0180	Fabrazyme®	agalisdase beta	May 2017
J0517	Fasenra®	benralizumab	December 2018
J1951	Fensolvi®	leuprolide acetate (for depot suspension)	July 2021
J1572	Flebogamma®	immune globulin (human)	May 2017
J9210	Gamifant®	emapalumab-lzsg	March 2019
J1569	Gammagard Liquid®	immune globulin infusion (human)	May 2017
J1569	Gammagard Liquid ERC	immune globulin infusion (human)	February 2026
J1566	Gammagard S/D	immune globulin intravenous (human)	May 2017
