Specialty Medical Injectables with Reimbursement Restriction

Drug list and frequently asked questions

Updated July 2026

Per the Cigna Healthcare® Specialty Medical Injectables with Reimbursement Restriction requirement, certain specialty medical injectables must be dispensed and their claims submitted by a specialty pharmacy with which Cigna Healthcare has a reimbursement arrangement, unless otherwise authorized by Cigna Healthcare.

The reimbursement restriction list:

- Applies when the specialty medical injectable is administered in an outpatient hospital setting.
- Applies to specialty medical injectables and Cigna Healthcare-designated gene therapies eligible for coverage under the medical or gene therapy benefit. Coverage is determined by the customer's benefit plan.

Additional information about these guidelines is available in the Cigna Reference Guide for Physicians, Hospitals, Ancillaries, and Other Providers. To access the guide, log in to the Cigna for Health Care Professionals portal (CignaforHCP.com > Resources > Reference Guides).

Frequently asked questions

1. **Which specialty medical injectables does this requirement apply to?**
   The list of affected specialty medical injectables is provided in this flyer. The Specialty Medical Injectables with Reimbursement Restriction list is subject to change without prior notice.

2. **Why does Cigna Healthcare have reimbursement restriction requirements for certain specialty injectables when covered under the medical benefit?**
   The requirement was implemented to help manage excessive pricing for medical injectables and ensure customers have access to cost-effective drugs and do not have to pay more than necessary.

3. **Is there a special prior authorization process for Specialty Medical Injectables with a Reimbursement Restriction?**
   No. The standard prior authorization process for medical necessity applies. Medical necessity requirements are outlined in the coverage policies available at CignaforHCP.com > Get questions answered: Resource > Coverage Policies.

4. **How does a provider request that a medication be dispensed by a Cigna Healthcare-contracted specialty pharmacy?**
   Per pharmacy regulations, a provider must send the prescription directly to the Cigna Healthcare-contracted specialty pharmacy. Cigna will help facilitate this process when the medical necessity requirement is met.

5. **How will Cigna Healthcare support coordination of services with a Cigna Healthcare-contracted specialty pharmacy?**
   A dedicated team will provide high-touch support and coordination of services with a Cigna Healthcare-contracted specialty pharmacy for timely dispensing of a drug to an administering provider. For questions or concerns regarding prior authorization of a specialty medical injectable with a reimbursement restriction, providers should call Cigna Healthcare at **877.865.6492**.

6. **How will providers be reimbursed for the administration of specialty medications?**
   Cigna Healthcare shall, consistent with billing and reimbursement policies and procedures, reimburse providers for any covered charges attributable to the administration of a specialty medical injectable. When submitting a claim for reimbursement, providers should:
   - Only request reimbursement for the appropriate code(s) to administer the specialty medical injectable or gene therapy.
   - Not request reimbursement for the specialty medical injectable or gene therapy.
   - Not seek reimbursement directly from customers for a specialty medical injectable or gene therapy.

7. **Are there alternative options of coverage for the Specialty Medical Injectables with a Reimbursement Restriction?**
   Coverage for specialty medical injectables is determined by a customer's benefit plan. When benefits allow, certain specialty medical injectables may by covered under the customer's pharmacy benefit.

8. **How are specialty medical injectables dispensed when a customer's benefit allows coverage under the pharmacy benefit?**
   The specialty medical injectable is dispensed by a process called "clear bagging." Clear bagging is the dispensing of specialty medications from an affiliated, health system–owned specialty pharmacy to provide medications for administration in health system facilities. Providers can maintain the oversight and coordination between the health system specialty pharmacy team and administering provider.

9. **Who should providers contact with additional questions about the reimbursement restriction guidelines?**
   Providers should call Cigna Healthcare Customer Service at **800.88Cigna (882.4462)** if they have general questions about the Specialty Medical Injectables with Reimbursement Restriction guidelines. For questions about prior authorization of a specialty medical injectable, providers should call **877.865.6492**.

10. **Is Accredo the only Cigna Healthcare-contracted specialty pharmacy for drug procurement?**
    No. Accredo is a Cigna Healthcare specialty pharmacy. Cigna Healthcare partners with other specialty pharmacies and will continue to do so in the future.

Gene therapy injectables drug list

The following table details the affected drugs[1] eligible for the gene therapy injectables drug list. This list may change without prior notice.

HCPCS code	Name	Contracted specialty pharmacy	Addition date
J3398	LUXTURNA® (voretigene neparvovec-rzyl)	Accredo	May 1, 2018
J3399	ZOLGENSMA® (onasemnogene abeparvovec-xioi)	Accredo	May 24, 2019
J3393	ZYNTEGLO® (betibeglogene autotemcel)	CVS Specialty	November 14, 2022
J3387	SKYSONA™ (elivaldogene autotemcel)	CVS Specialty	December 28, 2022
J1411	HEMGENIX® (etranacogene dezaparvovec-drlb)	Accredo	February 2, 2023
J1412	ROCTAVIAN™ (valoctocogene roxaparvovec-rvox)	Accredo	July 25, 2023
J3401	VYJUVEK™ (beremagene geperpavec-svdt)	Option Care	July 25, 2023

J1413	ELEVIDYS (delandistrogene moxeparvovec-rokl)	Accredo	August 23, 2023
J9029	ADSTILADRIN (nadofaragene firadenovec-vncg)	Optum Frontier	August 23, 2023
J3394	LYFGENIA (lovotibeglogene autotemcel)	Accredo	February 26, 2024
J3392	CASGEVY® (exagamglogene autotemcel)	Biologics Orsini	January 1, 2025
J3590, C9399	KEBILIDI™ (eladocagene exuparvovec-tneq)	Orsini	April 1, 2025
J3391	LENMELDY (atidarsagene autotemcel)	Accredo	April 7, 2025
J3403	ENCELTO™ (revakinagene taroretcel-lwey)	Orsini	June 2, 2025
J3389	ZEVASKYN™ (prademagene zamikeracel)	CVS Specialty	June 30, 2025
J3405	ITVISMA® (onasemnogene abeparvovec-brve)	Accredo	February 3, 2026

Oncology specialty medical injectables drug list

The following table details the affected drugs[2] in the oncology specialty medical injectables drug list. This list may change without prior notice.

HCPCS code	Name	Contracted specialty pharmacy	Addition date
J9358	ENHERTU® (trastuzumab deruxtecan)[3]	Accredo	September 1, 2020
J9299	OPDIVO® (nivolumab)[3]	Accredo	September 1, 2020
J9228	YERVOY® (ipilimumab)[3]	Accredo	September 1, 2020
J9061	RYBREVANT™ (amivantamab-vmjw)[3]	Accredo CVS Specialty	October 1, 2021
J9273	TIVDAK™ (tisotumab vedotin-tftv)[3]	Accredo	November 1, 2021
J9359	ZYNLONTA® (loncastuximab tesirine-lpyl)[3]	Onco360	January 1, 2022
J9119	LIBTAYO® (cemiplimab-rwlc)[3]	Onco360	January 1, 2022
J9331	FYARRO™ (sirolimus protein-bound particles for injectable suspension)[3]	PANTHERx	January 1, 2022
J9298	OPDUALAG™ (nivolumab and relatlimab-rmbw)[3]	Accredo	May 1, 2022
J9063	ELAHERE™ (mirvetuximab soravtansine-gynx)[3]	Biologics	December 28, 2022
J9321	EPKINLY™ (epcoritamab-bysp)[3]	Biologics	July 25, 2023
J9286	COLUMVI™ (glofitamab-gxbm)[3]	Accredo	July 25, 2023
J1323	ELREXFIO™ (elranatamab-bcmm)[3]	Onco360	October 1, 2023
J9350	LUNSUMIO™ (mosunetuzumab-axgb)[3]	Accredo	January 1, 2024
J3263	LOQTORZI™ (toripalimab-tpzi)[3]	CVS Specialty	February 5. 2024
J0870	RYTELO™ (imetelstat)[3]	Biologics Onco360	July 15, 2024
J9028	ANKTIVA® (nogapendekin alfa inbakicept-pmln)[3]	Accredo	August 5, 2024
J9317	TRODELVY™ (sacituzumab govitecan-hziy)[3]	Biologics	October 1, 2024
J9177	PADCEV® (enfortumab vedotin-ejfv)[3]	Accredo	October 1, 2024

J9024	TECENTRIQ HYBREZA™ (atezolizumab and hyaluronidase-tqjs)[3]	Accredo	October 1, 2024
J9329	TEVIMBRA® (tislelizumab-jsgr)[3]	Onco360	January 1, 2025
J9289	OPDIVO QVANTIG™ (nivolumab and hyaluronidase-nvhy)[3]	CVS Specialty	February 10, 2025
J9326	EMRELIS™ (telisotuzumab vedotin-tllv)[3]	Biologics	June 2, 2025
J9183	INLEXZO™ (gemcitabine hcl)[3]	Accredo	October 15, 2025
J9277	KEYTRUDA QLEX™ (pembrolizumab and berahyaluronidase alfa-pmph)[3]	Pending	October 15, 2025
J9307	FOLOTYN® (pralatrexate)[3]	Accredo	January 1, 2026
J9062	RYBREVANT FASPRO™ (amivantamab and hyaluronidase-lpuj)[3]	Accredo, CVS Specialty	February 3, 2026
J9350	LUNSUMIO VELO™ (mosunetuzumab-axgb)[3]	Accredo	February 9, 2026

Specialty medical injectables drug list

The following table details the drugs in the specialty medical injectables drug list. This list may change without prior notice.

HCPCS code	Name	Contracted specialty pharmacy	Addition date
J2326	SPINRAZA® (nusinersen)	Accredo	May 1, 2018
J0567	BRINEURA® (cerliponase alfa)	Orsini	March 1, 2020
J0223	GIVLAARI® (givosiran)	Accredo PANTHERx	March 1, 2020
J0180	Fabrazyme® (agalsidase beta)[3]	Accredo	September 1, 2020
J2840	KANUMA® (sebelipase alfa)[3]	Accredo	September 1, 2020
J0202	LEMTRADA® (alemtuzumab)[3]	Accredo	September 1, 2020
J0221	Lumizyme® (alglucosidase alfa)[3]	Accredo	September 1, 2020
J0222	ONPATTRO® (patisiran)[3]	Accredo, Orsini, CVS Specialty , PANTHERx	September 1, 2020
J1299	SOLIRIS® (eculizumab)[3]	Accredo	September 1, 2020
J3241	TEPEZZA™ (teprotumumab-trbw)[3]	Accredo	September 1, 2020
J1303	ULTOMIRIS® (ravulizumab-cwvz)[3]	Accredo	September 1, 2020
J1429	VYONDYS 53® (golodirsen)[3]	Orsini	September 1, 2020
J1305	EVKEEZA™ (evinacumab-dgnb)[3]	Orsini	March 1, 2021
J1426	AMONDYS 45® (casimersen)[3]	Orsini	April 1, 2021
J1427	VILTEPSO® (viltolarsen)[3]	Orsini	July 1, 2021
J1428	EXONDYS 51® (eteplirsen)[3]	Orsini	July 1, 2021
J0219	NEXVIAZYME® (avalglucosidase alfa-ngpt)[3]	Accredo	November 1, 2021
J1931	ALDURAZYME® (laronidase)[3]	Accredo	January 1, 2022

J1786	CEREZYME® (imiglucerase)[3]	Accredo	January 1, 2022
J1743	ELAPRASE® (idursulfase)[3]	Accredo Orsini	January 1, 2022
J3397	MEPSEVII® (vestronidase afla-vjbk)[3]	Accredo	January 1, 2022
J1458	NAGLAZYME® (galsulfase)[3]	Accredo	January 1, 2022
J3590, C9399	REVCOVI® (elapegademase-lvlr)[3]	Walgreens	January 1, 2022
J1322	VIMIZIM® (elosulfase alfa)[3]	Accredo	January 1, 2022
J9210	GAMIFANT™ (emapalumab-lzsg)[3]	Biologics	January 1, 2022
J9332	VYVGART™ (efgartigimod alfa-fcab)[3]	Accredo	January 1, 2022
J1302	ENJAYMO™ (sutimlimab-jome)[3]	CVS Specialty	March 1, 2022
J0225	AMVUTTRA™ (vutrisiran)[3]	Accredo, CVS Specialty PANTHERx Orsini	July 1, 2022
J1747	SPEVIGO® (spesolimab-sbzo)	Accredo	October 1, 2022
J0218	XENPOZYME™ (olipudase alfa-rpcp)[3]	Accredo	October 1, 2022
J9381	TZIELD™ (teplizumab-mzwv)	Orsini	December 28, 2022
J0217	LAMZEDE® (velmanase alfa-tycv)[3]	Eversana	May 3, 2023
J1304	QALSODY™ (tofersen)	Accredo	June 1, 2023
J2508	ELFABRIO® (pegunigalsidase alfa-iwxj)[3]	Eversana CVS Specialty	July 1, 2023
J9334	VYVGART® HYTRULO (efgartigimod alfa and hyaluronidase-qvfc)[3]	Accredo	July 25, 2023
J9333	RYSTIGGO® (rozanolixizumab-noli)[3]	PANTHERx	July 25, 2023
J9376	VEOPOZ™ (pozelimab-bbfg)[3]	Orsini	October 1, 2023
J1203	POMBILITI® (cipaglucosidase alfa-atga)[3]	Accredo	November 8, 2023
J1307	PIASKY® (crovalimab-akkz)[3]	Accredo	July 29, 2024
J9256	IMAAVY™ (nipocalimab-aahu)[3]	Accredo	June 2, 2025
Q5151	EPYSQLI® (eculizumab-aagh)[3]	Accredo CVS Specialty	June 16, 2025
Q5152	BKEMV™ (eculizumab-aeeb)[3]	CVS Specialty	June 16, 2025
J3404	PAPZIMEOS (zopapogene imadenovec-drba)[3]	Biologics	October 15, 2025
J9226	SUPPRELIN® LA (histrelin acetate)	Accredo	January 1, 2026
J3590	LOARGYS (pegzilarginase-nbln)[3]	Orsini	March 30, 2026
J3590	AVLAYAH™ (tividenofusp alfa-eknm)[3]	Orsini	April 20, 2026
J3490	WAINUA® Prefilled Syringe (eplontersen)[3]	Orsini	May 13, 2026
J3490, J3590	LUMVOA (veligrotug-vvze)[3]	Accredo	July 14, 2026

1. These drugs, which Cigna Healthcare has designated as gene therapy products, are included in the Cigna Gene Therapy Program. To access the list of designated gene therapy products, log in to CignaforHCP.com > Resources > Reimbursement Policies and Payment Policies > Precertification Policies > Cigna Designated Gene Therapy Products Requiring Precertification.

2. When prescribing oncology drugs for your patients with Cigna Healthcare coverage, please request prior authorization, when it's needed, through eviCore healthcare. To access the full list of drugs requiring prior authorization, log in to CignaforHCP.com > Resources > Reimbursement Policies and Payment Policies > Precertification Policies > Oncology Drugs Requiring Precertification through eviCore Healthcare.
3. Cigna Healthcare may grant an exception to reimburse a one-time, or single, administration billed by a facility when a customer needs access to the injectable before it can be obtained from a specialty pharmacy with which Cigna Healthcare has a reimbursement arrangement.
